API Application Programming Interface

INTRODUCTION

Here comes the introduction with a cite [1] and a ref Chapter 3 and an acronym Application Programming Interface (API).

CONCEPT

The minted package is really nice for code formatting.

```
1 class ContextData < TransformStep
2
3   def transform(original_event, processing_units,
4     ↳ load_commands, pipeline_ctx)
5     processing_units.each do |processing_unit|
6       next if processing_unit[:in_context].nil? ||
7         ↳ processing_unit[:in_context][:user_agent].nil?
8
9       user_agent =
10        ↳ processing_unit[:in_context][:user_agent]
11
12       browser = Browser.new(user_agent)
13
14       processing_unit[:in_context][:platform]
15        ↳ = browser.platform.name
16       processing_unit[:in_context][:platform_version]
17        ↳ = browser.platform.version
18       processing_unit[:in_context][:runtime]
19        ↳ = browser.name
20       processing_unit[:in_context][:runtime_version]
21        ↳ = browser.version
22       processing_unit[:in_context][:device]
23        ↳ = browser.device.name
24     end
25   end
26 end
```

CONCLUSION

All in all, this is a nice thesis

DECLARATION OF ORIGINALITY

I hereby declare that I have prepared this master's thesis myself and without inadmissible assistance. I certify that all citations and contributions by other authors used in the thesis or which led to the ideas behind the thesis have been properly identified and referenced in written form. I also warrant that the above statement applies to the implementation of the project.

Hiermit versichere ich, dass ich die Masterarbeit selbständig und ohne unzulässige Hilfe Anderer angefertigt habe und dass ich alle von anderen Autoren wörtlich übernommenen Stellen wie auch die sich an die Gedankengänge anderer Autoren eng anlehnenden Ausführungen meiner Arbeit besonders gekennzeichnet und die entsprechenden Quellen angegeben habe. Ich erkläre hiermit weiterhin die Gültigkeit dieser Aussage für die Implementierung des Projektes.
